# The Welsh Bridge Union Autumn Simultaneous Pairs Wednesday 5th September 2018 Session 5387 

Dear Bridge Player

Thank you for supporting the WBU Simultaneous Pairs - I hope you enjoyed the hands and the commentary, which was done for us by Adrian Thomas and we are very grateful to him.
The funds raised from this event will help support the Wales Air Ambulance (http://www.walesairambulance.com/) and the WBU and its work with the development of bridge in Wales.
Please tell your friends at other clubs who may not have played in this event that we will be running another one in the Spring as we normally do and we would love to have them join us - as with this one, it will be run over a week, with five sets of hands available, one for each day, so you can play every night if you want to - and we certainly hope you will try and play more than once!

The results of this event can be found at www.ecatsbridge.com just click on the link to Sims and you will see how to find them. Best wishes - and enjoy your bridge!
https://welshbridgeunion.org/

$\mathrm{p}-14$--x is an obvious start and West will certainly raise, some more intrepidly than others. This should not stop $N$ competing to $5^{\top}$ if necessary, maybe thinking this is a save whereas it is in fact 4t that is the save over 4 H . Any E/W getting away with - 100 or less will score well. Any E/W doubling $5^{\circ}$ or bidding 5s and getting doubled will score badly.

After a 2NT opener N has a straight choice between 3NT and 4s assuming shows their 5 card Spade suit and then bids 3NT. N's flat $4-3-3-3$ shape and couple of fillers, 10 's and 9's ought to convince them to do the former, ie pass 3 NT. E on lead is likely to lead or and will then need to switch a heart when in with their first king to avoid II tricks. W will have no chance to signal until it is too late.

## Board 3. E/W Vul. Dealer South.

-KQ10962

- K82
- 74
- A9

This time 4 of a major is superior as N can take
a heart ruff in the short hand to come to 10 tricks whilst 3NT should be the limit. Bidding the 23 point game might not be clear so even 3NT may score reasonably. All may depend if South's 24 rebid promises 6, as in some 5 card major methods(but not all).Overall those pairs counting losers rather than points are more likely to bid game, as N has 7 loser's opposite an opening hand if knows has 8 card fit.

Board 4. Game All. Dealer West.

- 186
- AQJ95
- Q 1095
$-2$

Vulnerable 30 breaks all the guidelines and most, though not all N's will also pass allowing E to open I4.Assuming a INT response N is now well placed to over-call $2 \boldsymbol{2}$, E will then no doubt bid $3>$ and South raise hearts, leaving $\mathrm{E} / \mathrm{W}$ club fit lost. If left in $3 \boldsymbol{}$ with no entries to dummy declarer may well drop HK. If N does open I『E has opportunity to show a 2 suiter, again making club suit hard to find. Perhaps crap pre-empts are best after all!!!

## Board 5. N/4̣ Vul. Dealer North.

- 54
- AKQ 3
- A 3
\& 107532

N's club suit is so poor I think you have to open these hands INT despite the 2 doubletons rather than in Acol having to rebid $2 \boldsymbol{e}$ on this anaemic suit. After INT and a transfer followed by 2NT invite this leaves $N$ to decide whether min or max. 4 certain tricks looks max to me and is rewarded by favourable spade position, 44,3 and $2 \downarrow$ tricks in 3 NT . 4s may even come home on a Diamond ruff and club discard on heart.

Board 6. E/W Vul. Dealer East.

|  | $\begin{aligned} & 97 \\ & \text { KQJ63 } \\ & \text { J86 } \\ & \text { K64 } \end{aligned}$ |  |

|  | - 43 |  |
|  | - 8542 |  |
|  | - K 1095 |  |
|  | - A 75 |  |

44 is normal contract after most opening $2 \%$ to start showing a strong hand, making with K in the right position. 3NT has 9 top tricks and would have been a better contract if diamond K had been with N . In auction if N gets chance may bid hearts for both lead and to suggest a 5 \$ sacrifice. May get out for 3 off if $E$ doesn't switch club after cashing 2 spades as declarer can set up their long Diamond,

|  | ¢ Q 8543 |
|  | -103 |
|  | -65 |
|  | - A 1073 |

After a 14 opener $N$ has choice between $2 \varphi$ over-call or t.o double, the latter allowing E/W to find their fit more easily. This can make 9 with help of spade finesse. If N overcalls 29 and then gets chance to compete further with a double of 2 South has to be careful to not leave this in as their spades are too poor, rather bidding $3 \%$, which can make if declarer gets the clubs right but far more likely to lose control.

Q Q63

An average weak two which might even keep N/S out of auction though many N's will drum up $3 \%$. E will no doubt compete to $3 \stackrel{y}{4}$ and $S$ needs to do something but only Double really works as N can convert to penalties. $\mathbf{4 q}^{\boldsymbol{\circ} \mathrm{e}}$ worst whilst 3s likely to get a 4s raise. 3NT makes but very few will get there.A non weak two opener could well lead to 24 as final contract, though if W doubles a transfer E may again compete to $3 \uparrow$, risking - 300 .

INT is clear from E and now in order to find their diamond fit N/S need to be playing some method to show Spades and a minor. E/W can make at least 3 's, 4 if can score 2 spade ruffs in $E$ but must only draw one round of trumps and then play on clubs for a Spade pitch and cross ruff. 9 tricks in hearts will be more normal. W might just choose to defend 24,3 off on $\downarrow$ forces outscoring $3 \downarrow$ making
Board IO. Game All. Dealer East.

- K 943
- J6
- K642
\& 975

Another weak NT and some E's will try Stayman and then be wise to leave $2 \varphi$ and settle for a positive rather than try a speculative $4 \varphi$ although this perhaps by opponent's opening up Spades or by you taking a good view, such as disposing of a spade on winning club, a diamond finesse and 2 diamond ruffs inWest hand but even then timing has to be exact. The suit will yield 2 tricks if you start with small from E first, not technically the right play.

Board II. Love All. Dealer South.

It is the book opening and after a IV over-call E has choice of INT or raising diamonds, 3 works best straight away if South takes the bait and competes to $3 \downarrow$. If E tries INT first and then $3 \$$ over S's $2 \downarrow$ South should feel they have done enough with their flat hand. Even $2 V$ is too much on a club lead as long as E does not snatch at their AD. Playing pairs it seems right for E to double any $3>$ indiscretion. A is opener will almost certainly lead to $2 \Downarrow$ final contract.

4Y looks a likely spot and it will be difficult for W to find a club led to start knotting up entries, assuming that E does not snatch at Ace straight away. On a more normal spade lead declarer should play to Ace and then Heart to King and duck a diamond, leaving them able to ruff a in dummy and lead another $\upharpoonright$ up. North might have to bid game on their own as has nothing extra to accept a 30 invitation, particularly when their Hearts are so poor.

$\bullet 6$
- J 104
- 10952

After le start and a IV over-call ls ought to show 54, with a negative double showing 4 spades only. However much W raises in Hearts N has an easy 4s bid. 5 is a good sacrifice on this double fit hand and N/S then need to take the money. Note on another day if $\varphi$ 's and e's were $3-I$, if $E$ was I-5-4-3 shape for example 58 might even be making so a $X$ might not come and may even go onto 54, the wrong choice.

|  | \% A 6 |  |

Finding 4-4 spade fit should be easy enough but then getting out of it to play in 3NT is more tricky particularly amongst tournament players who often play 14-3NT as inviting a cue bid. Even if played as natural even this contract will be difficult to make on a club lead but should get home on original Diamond lead(so much for 4th highest of best suit). Declarer is quite likely to try a double $\downarrow$ finesse . Some might be given contract by E panicking and cashing A
Board 15. N/s Vul. Dealer South.

- Q 4
- KQJ74
532
```

It looks like a boring INT all pass but some intrepid E will protect at this vulnerability with the idea of disturbing INT. If they can do so with a bid to show "'s and minor they will reap huge benefits, though many defences to INT require 5 of major. INT plays well on $\downarrow$ lead as declarer has time to set up 2 tricks and should make at least 8 tricks despite blockage in 's. $2 \downarrow$ can make 9 so very much shows benefit of interference.

After a 1 Y opener and $2 \boldsymbol{2}$ response it looks like 5 D's will be most common contract after a 2D-3 continuation, though 3NT has 10 top tricks and $4 \stackrel{V}{ }$ in 5-2 fit plays very well, I I tricks unless E can get $\downarrow$ ruff in. Note recommendation that N does not need to jump to $3 \star$, a new suit should be Forcing for IR after new suit at 2 level. No problem in play of 5 of minor andW might put off NT contracts by sticking in a 24 bid though this looks unappealing vul at 2 level.

I would personally show E hand as 23-24 balanced rather than $2 \boldsymbol{2}-2 \leqslant$ start but either way 3 NT is almost certainly going to be final contract. It looks right to try to set up a club trick, any 3-3 club break or $\uparrow$ with one hand will allow this. Defence have to be careful not to set up a Spade trick for declarer and finding a sensible lead is first problem, as if W has used Stayman or shown spades after $3 \diamond$ bid neither Major looks attractive. Q* might even be led.

A INT opener will mean some S's can't bid 2e naturally, leaving $W$ to take out into diamonds, I personally play 2 NT here as transfer to 3 of minor, correcting 3e to 3D. North may feel they are being talked out of 4 of a major but neither can make, $4 \downarrow$ because of a Spade ruff, 4. declarer can get forced in Diamonds. I hope W doesn't take pre-empting in diamonds too far because they have little defence themselves.

Another weak NT and then via transfers W can play in 44, a finesser's dream as N can't lead a club without losing to Q and then club goes away on a Heart after drawing trumps for 12 tricks. Embarrassingly it can be same number of tricks in NT played by W but surely everybody opts to play in 5-4 major fit!!. Prepared club openings might get hand played by E and then 4 has 50/50 chance of leading club as should rule out heart lead from unsupported Ace.

- KQ 5
- KJ86
- Q62
\& 763
I would favour a NT opening with $W$ hand, I am not a fan of passing with 3 Aces and consider the Heart suit not good enough for rebidding. Again 4s via transfers should result. II tricks are possible via club finesses but declarer more likely to ruff I club in short hand and pitch other on $\downarrow$ Ace conceding $1 \$$ and 24 tricks. Trump lead from either defender is disastrous and 3NT is awful, particularly on $\vee$ lead involving playing on clubs for 4 tricks, not obvious.

Board 2I. N/Q Vul. Dealer North.

- Q 5
- 8532
- 8
- AK 9764

Only has a genuine open but then $E$ is sure to compete, and the 6-I fit should play better than 4-3 fit. Neither should matter as N can compete in clubs, where they have 10 top tricks. If W tries to compete further somebody should double. 3s need only go I off if declarer plays 2 rounds of trumps, then even if defence draw trumps after forcing declarer, clubs are blocked, assuming top club has been led, and declarer has 6 tricks outside to go with 2 trump tricks.
Board 22. E/W Vul. Dealer East.
」 J 9652

- A 7
- KJIO
-K K 97

Another INT with just 3 Aces. South doesn't really have points to bid but the vulnerability will persuade some S's to bid and they will get a plus score if N is not tempted to proceed to 3 H . It is quite a useful tactic to try to dislodge INT but then partner not be tempted to try for game just because they have opening hand, certainly at pairs. If you don't INT has 8 easy tricks. Facing interference $W$ might compete in clubs, which has 9 tricks or push N to 3 P , I off.

Board 23. Game All. Dealer South.

AKQ84
J 1075
10

- Q65
- Q 65

This looks a straightforward auction to 4P, I $\mathbf{~ - ~}$ 24 and if just goes by losers(6) W can raise straight to game, making II if get lead as declarer can pitch 2 clubs on spades before drawing trumps. Leading $A \upharpoonright$ will work nicely as will give chance to work out club switch is needed to keep declarer to 10 tricks, might even have defeated contract if N had Jo as well as A .
Board 24. Love AII. Dealer West.

4s is likely contract and played from $W$, for those playing ACOL, not easy for $N$ to find $A$ diamond lead which is far more likely from S , even though they have a good alternative club lead. It beats me why anybody would want to play 3NT. Is-3s-3NT pass perhaps, but if you are in it by $W$ and get a diamond lead you could get a lucky II tricks if you go for broke, running to $Q$ and then finessing $\$ 10$, plus $\Downarrow$ finesse, cruel game!! if this happens to you N/S.

If $E$ gets to open $14 E / W$ may get a free run to 24 which will make more often than not, as long as declarer avoids 3 losers. However free runs are rare, some N's will decide to open, eg with prepared club or "weaker NT" and the heart fit may be found. may choose to double a ls opener and finally if P-Is -P -INT N could then double to show near opener. $3>$ likely to make if Spade is led from either defender as declarer should guess spade position.

R K 765
With correct guesses E/W can make II tricks in H's and a reason to get H's right is because need entries to dummy to set up a trick for a discard. A Spade honour lead will also help declarer, though on lead declarer likely to try 9 , wrong on this occasion. NT plays similarly and flat nature of E's hand may help them to view that, after a 2NT rebid from W, it is not worth showing their 3 card support. On a lead and inserting 9 even more reason to get hearts right
Board 27. Love All. Dealer South.

A likely hand for N to use Michael's though on - lead and continuations declarer will have to ruff with Ace of Spade's to avoid 2 losers in this suit.4s is too high and may attract a double. If $N / \$$ have stopped in 3 this play will be essential to make contract. Those that play Michael's weak or strong will just over-call is in first place and help stay lower, though may be still be tempted to raise a pre-emptive 3s from South to 4.

## Board 28. N/s Vul. Dealer West. <br> - 87 <br> - AK 1063 <br> - K843 <br> \& A 10

Everybody nowadays seems to open is with $5-5$ in blacks and after a $2 \varphi$ over-call E is sure to dredge up 2 S . N/S at this vulnerability may go onto $5 \vee$ and $E$ will be tempted to take the money as from their point of view 54 may be too high.
Note for old fashioned le opener's and a preparedness to then bid 49, it certainly makes 54 more attractive to E knowing they have double fit. Can't see pairs bidding to lucky 6, making because clubs are 2-2.

Is P INT $x$ or Is $p$ 2s will push N/S higher than it is safe to go though unless $E$ finds a lead and gets a ruff, 31 will make, South will turn down any game invitation. On a heart lead declarer will have sufficient entries to dummy to lead Diamonds twice from dummy. Note North can redouble to show a good hand in either auction above to allow South to then turn down the game try.
Board 30. Love AII. Dealer East.

- 106
- KQ873
- 73
\& AQJ6

North will undoubtedly open IV and then likely auction is $I \vee \times P$ Is $2 \boldsymbol{2 N}$ T. If declarer gets Spades right they can make 8 tricks. Some S's will bid a Spade first and then $W$ will pass and N should still bid $2 \boldsymbol{2}$, making E's 2nd bid much harder as now has 2 suits with only one stop in to worry about, but if perseveres and still bids 2NT the auction will actually make it easier to get spades right as now knows they are 4-2.

## lladgollen congress <br> 24 Cb \& 25 Ch NOVEMBER 2018 <br> at the brun boutel hotel llangollen

For more information please download the brochure and entry form from the WBU Website at : https://welshbridgeunion.org/
The Llangollen Congress attracts teams from all over Britain and is always played in a friendly atmosphere. The Swiss format means that you will meet teams of a similar level and so is suitable for all abilities.
Join us again this year and enjoy the delights of Llangollen, both as an outstandingly beautiful area of Wales and as a cosmopolitan bridge congress. Extra Playing Area is available this year.
